

EXPLORE A CAREER AS A TECHNICIAN (ELECTRONICS, QUALITY ASSURANCE, ETC.)

Technicians play a key role in keeping production on track by testing, inspecting, and troubleshooting electronic or mechanical systems. You'll operate specialized equipment, ensure products meet quality and safety standards, and solve technical issues as they arise.

PAY: \$65K-95K/YEAR

TIME INVESTMENT: 1-3 YEARS

Modern manufacturing uses high-tech equipment and automation to make products faster, safer, and with greater precision. Technician positions vary widely, but they can be found in most manufacturing sectors like life sciences and electronics manufacturing.

Pivot into high-paying manufacturing careers such as an **Electronics Technologist**, **Quality Control Associate** or **Electro-Mechanical Assembler** by using your current experience as:

**ASSEMBLY
PRODUCTION
SPECIALIST**

**PRODUCTION
WORKER**

**LINE
OPERATOR**

**MACHINE
OPERATOR**

**MATERIALS
HANDLER**

**PACKAGING
ASSOCIATE**

**DEBURRER
ASSOCIATE**
